PROFESSIONAL SUMMARY

Detail-oriented and results-driven Software Developer with 4+ years of experience across Frontend Web Development, Product Design, and Android Development. Skilled in building scalable, responsive web applications using modern frameworks like Next.js, and crafting intuitive mobile experiences with Jetpack Compose. Strong eye for UI/UX design with hands-on expertise in Figma, consistently delivering user-centred products that balance aesthetics with performance.

TECHNICAL SKILLS

Frontend Next.js · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Bootstrap

Mobile Development Kotlin · Jetpack Compose · Android SDK

Design Figma – UI/UX Design, Prototyping, Wireframing

Tools & Workflow Git · GitHub · VS Code · Android Studio · Agile / Scrum

Other Responsive Design · RESTful API Integration · SEO & Accessibility

PROFESSIONAL EXPERIENCE

Android Developer

June 2026 – Present

LAPO Microfinance Bank

- Led the product design, development, and successful launch of the LAPO Mobile 2.0 Android App, delivered using Kotlin and Jetpack Compose.
- Partnered with product and design stakeholders to define app architecture, UI flows, and feature scope for the LAPO Mobile 2.0 relaunch.
- Built and maintained scalable Android application features, integrating RESTful APIs for authentication, transactions, and real-time data.
- Drove QA and release readiness, ensuring a stable, well-tested rollout across production environments.
- Collaborated with cross-functional backend, QA, and product teams in an Agile environment to deliver on roadmap milestones.

Android Developer

Jan 2024 – Apr 2026

AppCoy Softwares Limited

- Developed and maintained Android applications using Jetpack Compose and Kotlin, delivering clean and scalable architecture.
- Led the redesign of key app screens, improving user engagement and reducing drop-off rates.
- Integrated RESTful APIs for authentication, transactions, and real-time data updates.
- Improved app performance by optimising UI rendering and significantly reducing load time.
- Identified and resolved critical bugs, leading to more stable releases and improved user ratings.
- Collaborated with cross-functional teams (backend, QA, product) in an Agile environment.
- Contributed to code reviews and mentored junior developers on Android best practices.
- Reduced app crash rate by over 30% through proactive debugging and performance monitoring.
- Improved app startup time by ~25% through targeted optimisation techniques.
- Successfully delivered multiple production releases with minimal post-release issues.

Frontend Web Developer

Feb 2022 – Dec 2023

Noir Limited

- Built and maintained responsive web applications using Next.js, Tailwind CSS, and JavaScript.
- Translated Figma designs into pixel-perfect, production-ready interfaces.
- Implemented reusable component libraries, improving development efficiency and consistency.
- Integrated APIs and handled dynamic data rendering across multiple pages.
- Optimised web applications for speed, SEO, and accessibility.
- Ensured cross-browser compatibility and responsiveness across all device sizes.
- Improved page load speed by over 40%, enhancing user experience and retention.

- Increased development efficiency by introducing structured, reusable UI component systems.
- Contributed to the successful launch of multiple client-facing web applications.

Junior Frontend Developer

Mar 2021 – Jan 2022

Prodile Tech Limited

- Assisted in building and maintaining web applications using HTML, CSS, Bootstrap, and JavaScript.
- Converted UI/UX designs into responsive and functional web pages.
- Fixed UI bugs and improved layout consistency across multiple projects.
- Collaborated with senior developers to implement features and improve overall code quality.
- Participated in testing and debugging processes to ensure smooth user experience.
- Delivered multiple UI features ahead of deadlines, improving overall team productivity.
- Played a key role in improving responsiveness across mobile and tablet devices.
- Reduced recurring UI bugs by implementing cleaner and more structured styling approaches.

Frontend Developer Intern / Product Designer

Feb 2020 – Feb 2021

Vendile Service Limited

- Designed user interfaces, wireframes, and prototypes using Figma.
- Assisted in developing web pages using HTML, CSS, and JavaScript.
- Collaborated with developers to ensure accurate design-to-code implementation.
- Applied UX principles to improve usability, accessibility, and overall user flow.
- Designed multiple UI screens that were successfully implemented into live products.
- Improved user experience on internal tools through thoughtful, data-informed design updates.
- Gained hands-on experience that accelerated transition into a full-time developer role.

PROJECTS

LAPO Mobile App 2.0

Android Development · Kotlin · Jetpack Compose · RESTful APIs

Prodile – Product Design & Website

Product Design · Next.js · Figma

Vendile AI Agent App

Product Design · Next.js · Figma

EDUCATION

Higher Diploma in Computer Science

2021

University of Ibadan
